"Making The World Work"

**Türkiye**

## WHO WE ARE...

**Machinery Exporters' Association**, which is known as Turkish Machinery abroad, was established in 2002 in order to coordinate all kinds of activities that will increase Turkish exports while gathering all machinery exporters under the same organization. Association is the only one, where the machinery exporters are represented and has over 24.000 members.

The targets of the Association are;

- Exerting efforts to expand the opportunities for the sector,
- Creating an industry with high technological skills,
- Seeking solutions to problems of members,
- Analyzing and finalizing project offers from members and raising the share of machinery export from 10% to 20% of Türkiye's total export volume as in all of the developed countries. The Turkish machinery exporter companies and their contact details can be found by using COMPANY SEARCH section in **Turkish Machinery** website.

### Company Profile

AGRIONAL AGRICULTURAL MACHINERY was established in the early 90's as the export brand of Onallar Agricultural Machinery based upon worldwide demand. Our proud brand is the leading manufacturer of agricultural sprayers in Turkey's domestic market. With inspiration from over 40 years of experience in Turkey's domestic agriculture sector, our export brand "Agrional Foreign Trade Co" has gained a highly revered reputation in more than 35 countries worldwide within a short period. Now we celebrate and are proud of our 20 golden years in export business and our highly demanded worldwide brand. We are a leading manufacturer of agricultural sprayers with a capacities ranging from 100 liters up to 3000 liters with different power generators - small units operating with electricity or gasoline engine and higher capacity units with the p.t.o. shaft of a tractor. We also export different types of agricultural equipment such as sprayers, cultivators, offset disc harrows, disc ploughs, disc ridgers, agricultural trailers, moto pumps, milking machines, multipurpose threshers, rotary mowers, mold board ploughs, seed drills, fertilizer spreaders, hole diggers, and grain augers. All the implements have the different range capacities. All the products that we export are under one year warranty against manufacture faults. Therefore we are proud of serving our clients with excellent quality equipment. You can consult our catalogue of products on our web site given below. If you need a printed catalogue please send us your address and we will send it as soon as possible via DHL. We are also ready to help facilitate your travel to Turkey to physically examine our products if you should so desire.

<b>Products</b>	Silage harvesters, Vertical feed mixers, Silage packaging machines, Manure spreaders.
<b>HS (GTIP) Code</b>	8436.10.00.00.00 - 8433.59.19.00.00 - 8422.40.00.00.19

### Company Profile

With over half a century of experience, Çelikel is one of the leading companies in the agricultural and livestock equipment sector. Since its establishment, the company has earned a strong reputation through its innovative approach, quality-focused production, and commitment to customer satisfaction.

Initially focused on soil cultivation machinery, Çelikel later expanded into livestock equipment manufacturing, growing its product range and reaching a broad global customer base. As one of the world's leading producers of feed mixing machines, the company continues to introduce cutting-edge technologies to the agricultural machinery market.

Driven by a dynamic and forward-thinking team, Çelikel has become a continuously evolving organization. With high production capacity and ongoing investments, it maintains a strong presence in both domestic and international markets and aims to further enhance its capabilities and service quality.

## DOĞANLAR AGRICULTURE CO.

**Contact Person** Ahmet Zafer Doğan  
**Products** Plough, Chisel, Disc Harrow, Rotavator, and Cultivator  
**HS (GTIP) Code** 8432.10.00.00.00

### Company Profile

Doganlar Agriculture Co. has been operating in the agricultural machinery sector since 2017. Continuously evolving and modernizing itself over the years, our company has become one of the leading brands in the sector with the trust and success it has gained. Our factory is in Ankara, with 46,000 m<sup>2</sup> of indoor space and 29,000 m<sup>2</sup> of outdoor facilities. Equipped with a modern machine park and advanced CAD/CAM capabilities, we have earned a reputation for delivering reliable, high-quality agricultural solutions to farmers across Turkey.

Doğanlar Agriculture specializes in the design and manufacture of field-proven implements tailored to modern farming needs. Leveraging in-house 3D solid modelling and rapid prototyping, we ensure each implement delivers maximum performance, durability, and ease of use.

### Product Portfolio

**Ploughs:** Reversible and multi-body mouldboard ploughs for efficient primary tillage

**Cultivators:** Spring-loaded and rigid tine cultivators with adjustable depth control

**Disc Harrows:** Power harrows, disc harrows, and spring harrows for seedbed preparation

**Chisels:** Heavy-duty chisels and subsoilers for deep soil loosening

**Rotary Tillers:** PTO-driven tillers in multiple working widths for versatile soil cultivation

### Our Commitment

We are dedicated to continuous innovation, rigorous quality control, and close collaboration with our customers. By listening to farmers' feedback and investing in research and development, Doğanlar Tarım empowers agricultural professionals with durable, high-performance solutions that boost productivity and sustainability.

## OZKAN ENDUSTRI MAKINA SAN. TİC. LTD. ŞTİ.

**Contact Person** Erhan Isguzar  
**Products** Front Loaders and Attachments for Tractors  
**HS (GTIP) Code** 8428907100

### Company Profile

Our company, established in 1970, has always adopted the principle of producing high-quality and innovative products for its customers. We manufacture 6 different Front Loaders and 35 different Front Loader Attachments designed for tractors in the 50–200 HP range, using advanced manufacturing technologies in a 12,000 m<sup>2</sup> indoor facility.

Our FL Series Front Loaders can be mounted and dismounted from the tractor in just 1 minute without the need for any tools or additional personnel. The Euro 8 attachment change adapter featured in the FL Series allows for fast and easy attachment swaps. Joystick control ensures easy and ergonomic operation. FL Series Front Loaders ensure the safety of both the load and the tractor thanks to an excellent attachment self-leveling system. The Soft Drive System prevents the tractor from being exposed to heavy shocks and offers comfortable usage for the operator.

The front loader brackets are designed to match the original structure of your tractor for proper installation. Durable, wear-resistant attachments have been designed and implemented. Pre-paint treatments and electrostatic painting provide long-lasting corrosion resistance.

A wide field of vision is offered to ensure maximum road visibility and optimal control of both the tractor and the front loader.

## SEVSAN

**Contact Person** Melis Toksöz  
**Products** Discharrow, chisel, fertilizer  
**HS (GTIP) Code** 843221000000, 84322990039, 843242000000

### Company Profile

Our company was founded in 1987 by our founder, Veysel Severcan, in Aşağı Çobanisa, a small town in Manisa. Sevsan, a successful agricultural machinery manufacturing business, felt the need to expand in 2000 and moved to its factory, which has a total area of 4,000 m<sup>2</sup>, including 2,000 m<sup>2</sup> of indoor space.

With continuous innovations and an expanding machinery park, the company has increased its product range and continued its growth. Due to increasing customer demand and an expanding product portfolio, Sevsan launched its second factory in 2021, covering a total area of 10,000 m<sup>2</sup>, with 5,000 m<sup>2</sup> of indoor space. Following national and international agricultural technologies and integrating these new advancements into our products, while manufacturing at international standards combined with Sevsan quality, is a great honor for us. Customer demands always take the highest priority.

Thanks to the optional features of our machines, customers can request the best modifications suited to their needs. Components that are either close to each other or work in the soil undergo heat treatment to enhance strength and quality. Sevsan actively participates in fairs, social media, catalogs, and TV advertisements. Our biggest goal is sustainable quality. In this regard, necessary quality studies are carried out, and production is conducted in accordance with international standards.
